### Recommended Tools & Materials

### TROPIC MIRROR 9212101 INSTALLATION

**NOTE:** Where possible, try to affix to a stud or provide adequate wall support for the size and weight of the mirror.

Measure distance "D" between Wall Mounting hardware, and distance "H" from base of Mirror.

Pre-drill holes in wall for Plastic Anchors (use when no stud is available) to the required "D" measurement and desired height from the floor (preferred height of bottom of Mirror from floor + "H" for a total height).

Insert Plastic Anchors provided into the pre-drilled holes and thread the screw hardware into the Plastic Anchor using a proper screwdriver. Allow the head to protrude from the Plastic Anchor adequate to hold the mounting hardware securely in place.

Mount the Mirror to the wall by fitting the mounting hardware onto the protruding screw head.

## Care and Cleaning

Clean the product by using soft, slightly damp cloth. Buff the product by using a soft dry cloth. When cleaning the mirror, spray the mirror with a glass cleaner and wipe clean. Avoid using silicone cleaners and waxes.

Clean up excess water and spills immediately. Use a blotting rather than a wiping action. Water left over a long period of time will cause white spots in the finish.

NOTE: Please note that some chemicals may damage the finish. Take care to avoid the following: iodine, hair dye, after shave lotion, shaving cream, alcohol, perfume, Lestoil®, Lysol Tub and Tile Cleaner®, Lysol Spray Disinfectant®, Dow Disinfectant®, acetone, paint remover, Formula 409®, Tile-X®, and Nair®.
